# Waterlily

Deep within the Amazon basin, giant waterlilies thrive amongst shallow waters and tropical heat. Originally created during the 1800s, Waterlily has featured consistently within the Wedgwood archive ever since. It is thought the inspiration for this pattern came from John Wedgwood, Josiah's eldest son, founder of the RHS and enthusiastic horticulturalist.

## Wild Strawberry

Feast your eyes on this delicious design from 1964, inspired by fresh, wild strawberries. Recreating the feelings of a lazy English summer, its finely drawn leaves and flowers transport you to a country garden where the smell of cut grass hangs on a gentle breeze. In the distance, a game of cricket can be heard and even if rain does occasionally stop play, it'll never put a halt to that most English of things, afternoon tea.

## Pink Lotus

A symbol of inner wisdom and the sanctity of daily life, the Pink Lotus is considered a sacred flower in the tropics of Asia. Typically found in marshy swamps, it produces gigantic fragrant blossoms and leaves, a haven for flying insects such as bejewelled dragonflies. The delicate balance of daily life is celebrated in this bold and beautiful pattern.
